Re: Drug Enforcement Agency (DEA) possible involvement in detrimental acts against  
Sidney Keys

Sidney Keys, July 24, 2017  
SIDNEY KEYS

I wrote a letter informing you I was finished with my reporting, but I am not because  
other organizations may be involved in the campaign to use me physically and make my  
life difficult.

On three different occasions, drugs have been used to do various things to me. The first  
incident was in my apartment. When I entered my apartment with my friend, Amy  
Woodson, there lay some crack cocaine on my dinning room table. I filed a police report  
regarding this incident, but the written report was false. The report stated there was crack  
cocaine found after I returned from the hospital. But actually, it was placed there a few  
days after I returned from the hospital.

The second incident happened in my hotel room in Carlsbad, California. When I entered  
my hotel room, the room was filled with marijuana smoke. I reported marijuana smoke to  
the hotel manager. DATE: APPROX. AROUND JAN, 2011

Also, on separate night in the same hotel, this guy, unknown to me, knocked on door of  
my room. When I looked out the peep hole, this guy was standing outside my door.  
looking from left to right as if he was doing a drug transaction.

The third incident was when I had a room at the Travelodge in Barstow, California. When  
I turned on the heat in the room, somehow the smell of crack cocaine smoke came  
blasting out of the heater.

THE REASON THE DEA TRIED  
TO FORCE MYSELF TO BE A DRUG INFORMANT  
I believe the DEA (War on Drugs) is important to our nation just as the defense of this  
country. I have always desired to work with and for the DEA, but unfortunately, there is  
a bad element within the organization so a lack of trust is a big factor. No one has never  
approached me about working for the DEA. Dr Chisti mentioned drugs during a  
counseling session on two occasions which I felt curious about.

They copied  
control  
me and  
the John  
H. H. H.  
ESTATE

Syberna  
Sincerely

# LAW SUIT AGAINST THE "DEA" ANDREW CHAMBERS

Re: A bad element within the Drug Enforcement Agency, attempting to exploit, control me, and assist in taking my children from me. AND MYSELF (SIDNEY KEYS) TO BE A DRUG

Dr. Keith Odegard performed an operation that affected my nasal area. Something was done to my nasal area; something possibly cut and/or removed. This was done in order to harass me and control my movements. WITH CERTAIN SMELLS, SUCH AS HAND SANITERS, AUTO EXHAUST, CERTAIN LAUNDRY DETERGENTS AND PERFUMES

IN CALIFORNIA ) As a result of this operation, a bad element in the Drug Enforcement Agency (DEA) was able to move me from Missouri to California and on to Hawaii. I believe this was also done to take my children out of my life. While staying at a an Extended Stay Hotel, one day when I arrived at my room there was massive marijuana smoke coming out of the vents located in my bathroom. I reported the incident to the hotel manager. Also, in the late evening this guy knocked on my room door. I looked out of my peep hole, and some strange guy was looking left to right and pacing, as if he was looking to purchase some drugs (this is what I believe after what has taken place thus far in my life).

While in a Travelodge Hotel in Barstow, California, I turned on my heater and the smell of crack cocaine came from the vents. I don't know how they managed to do that. (I AM FAMILIAR WITH THE SMELL OF CRACK COCAINE FROM BEING A DRUG INFORMANT)

Prior to flying out Maui, Hawaii at the Maui Seaside Hotel, I was drugged that night, and the following morning when I woke up it was as if I was moving in slow motion. I knew I had been drugged. I got in the shower to shake it off and become sober, so I could make my flight. While in the shower, I looked and saw this man size opening in the ceiling. This was a way to come in my room and drug me, but I really don't know how they did it. I thank God I was able to shake it off and make my flight. I believe this was an attempt to prevent me from leaving Hawaii. FOR THE U.S. POSTAL SERVICE

In July 2009, I walked into my apartment at the Pavilion Apartment Complex and there was some crack cocaine on my kitchen table. My friend, Amy Woodson, was with me. I disposed of the drug and went to the Maryland Heights Police Department and filed a police report. Please note at the time of these incidents, I told Beverly Dillard and Amy Woodson. Also my mailman Ed Wilder has delivered mail with some type of drug substance on my mail that gave me a instant disorientation. He was also Tyree(my son) football coach, that personally harassed my son during football season. PHYSICALLY ABUSED TYREE

The DEA is a well respected law enforcement agency by myself. Unfortunately, there is a bad element that needs to brought to justice so we can continue the fight the war on drugs, without controlling, framing, and entrapping innocent citizens.

Thank You.  
Sidney Keys
